

## **Chi Alpha Pause**

Take a minute to notice that God is with you. Take a few deep breaths if you need to, but slow down, be quiet, and listen for His prompting. How did your most recent Core Group meeting go? What went well? How did God show up in your time together?

Were there any challenges for you as you lead the group? Did something about the meeting not work (location, space, participation)? Explore this with God and write down what He is saying. He might want you to bring this up during your resource group, or on a one-on-one with member of Chi Alpha staff.

What is God speaking to you personally as you lovingly lead this small group? How are you growing more in love with Jesus? What is He saying to you?

How is God inviting you to pray for your small group members? Keep in mind, this might be something they told you, or it might be something the Holy Spirit tells you.

Which member(s) of your Core Group is God asking you to spend more time with this week?
